

# Paint/Oil/Grease Remover

Effectively removes stubborn oil based spots. P.O.G is formulated to be highly effective in removing normally troublesome spots from textile surfaces. Use with confidence on carpet, upholstery and other textile surfaces. Quick acting and highly effective.

## Easy to use

1. In most cases do not dilute, product is ready to use but it can be diluted if required.
2. Pre-test for crocking.
3. Apply product to a clean white cloth.
4. Blot the oil based spot working from the outside in.
5. To ensure no residue remains blot the area with a clean white cloth wetted with volatile solvent (Dry Fabric Cleaner).
6. Allow area to dry.
7. Discard used cloths in a safe, enclosed waste receptacle.

## What Does It Do?

### Effectively remove oil based spots

P.O.G. is formulated to be highly effective in removing normally troublesome spots such as grease, paint, carbon and other oily based spots from textile surfaces.

### Use with confidence

P.O.G can be used to safely remove oil based spots which do not come out during the normal cleaning process.

### Quick acting & highly effective

The product's formulation contains effective grease/oil cutters which saves time and makes oil based spots disappear.

### 'Crocking'

Certain intensely coloured or heavily built dyes can rub off when dampened with solvents; this is known as crocking. To test for crocking with a white absorbent cloth with product and in an inconspicuous area wet and rub each colour checking for transfer or smearing on the cloth.

**ALWAYS pre test areas to be treated**

### P.O.G. Characteristics

pH @ use: n/a  
Coverage: n/a  
Dilution: Ready to use  
Appearance: Clear yellow liquid  
Fragrance: Banana  
Packaging: Case 12 x 0.946 Ltr
