

Heavy Duty Soil Lifter

Versatile pre spray designed for upholstery, drapery and carpet. Aids drying time due to the high solvent ratio. Excellent spotter for ink, floor finish, shoe polish, light grease, oil, tar and other oil based stubborn spots. An additive for your alkaline carpet or upholstery detergent.

As a detergent booster

Heavy Duty Soil Lifter combines with virtually every wet cleaning detergent system to boost cleaning ability. The unique synergism created by combining Heavy Duty Soil Lifter and your detergent provides extra one-step cleaning power for tougher soils.

Concentrated for economy

Heavy Duty Soil Lifter is concentrated for economy. Varied dilutions give you the right cleaning ability tailored to the degree and type of soiling. No more need to over use high concentrations for light soil. Tailor your dilution to the soil to immediate soil removal or loosening.

Neutral pH

Heavy Duty Soil Lifter is specifically formulated with a neutral pH for gentle, effective and efficient cleaning of delicate carpet, upholstery and draperies.

What Does It Do?

Pre spray upholstery and delicates

Chemspec Heavy Duty Soil Lifter is a special formulation of selected ingredients designed to loosen stubborn dirt and oils found on upholstery, draperies and delicate carpeting inc. oils and sooty soils.

Makes upholstery cleaning easier

Use of Heavy Duty Soil Lifter makes upholstery cleaning easier since soils are loosened and then easily removed. Reduces the need of excessive rubbing and chance of abrading fibres of delicate upholstery fabrics.

Crisp, dry residue

Product dries to a non tacky crystalline powder which can easily be vacuumed away. Minimum residue allows for a longer lasting, higher level appearance between cleanings.

Use wet or dry

Heavy Duty Soil Lifter is specially formulated to be used as an upholstery pre spray for oily soils on both wet or dry cleaning methods. One product can perform all pre spraying needs.

Safe to use, pleasant aroma

Contains no harsh aliphatic or aromatic solvents and has a light lemony aroma.

ALWAYS pre test areas to be treated
