

# Professional Spot Lifter

A water based spot remover effective on oil and water based stains such as blood, soft drinks, light grease, oil, tar, coffee, tea, floor finishes, copier tones, spills, dirt, grime, and more. Formulated after 26 years of research and development.

## General usage

Spray on to the affected area and blot with an absorbent cloth, continue applying and blotting until all the stain is removed. Rinse thoroughly with fresh water and blotting or use an extractor.

## What Does It Do?

### Easy to use

The simple spray and blot technique requires no training for you or your staff and works well on oil and water spots.

### Used in hospitals and the healthcare industry

Professional Spot Lifter helps take care of food and beverage spills as well as impossible spills like iodine and medication.

### Water based - safe

Professional Spot Lifter is environmentally safe and user safe. Effective on oil and water based stains such as blood, soft drinks, light grease, oil and tea, coffee, iodine, copier toner and more.

ALWAYS pre test areas to be treated
